

# Complete Diesel System Cleaner

Art. no	Volume	Items per unit	Items per pallet
AD06250	250 ml		
AD06999	1000 L		

## Description

MPM Complete Diesel System Cleaner cleans the entire diesel fuel system including the injectors. The treatment also contains a cetane booster and additives to lubricate the diesel fuel pump.

## Main Benefits

- Cleans the entire fuel system including the injectors.
- Improves and enhances the engine and combustion performance.
- Increases cetane number.
- Lubricates the diesel fuel pump.
- De-cokes the combustion chamber and reduces carbon build up.
- Reduces fuel consumption and reduces emission of hazardous exhaust gases.

## Application

For all diesel engines including common rail with or without turbocharger running low- or normal-sulphur level diesel fuel.

## Instruction

- ❖ Pour entire content of the 250 ml bottle in the tank, preferable before refueling with diesel fuel.

Dose for 40 to 60 litres of fuel.

The product can be used as a curative treatment or preventative if used on a regular basis.

## Typical Characteristics

Density	~0,78	Kg/l
Colour	Clear / amber	
Flash point	~61	°C
